

METAMORPHOSIS NETWORK FORUM

September 16th, 2020

Zoom

Metamorphosis Network Forum

Purpose

- ✓ Share survey results
- ✓ Discuss and determine a desired role for the Metamorphosis Network in offering an opportunity to CSS and MH&A network participants, and OHT's for the selection of Collaborative Council representation as a collective voice
- ✓ Discuss and determine the proposed Leadership Table infrastructure for the Metamorphosis Network in alignment with health system transition

Survey Results – 30% overall

Community Sector Representation on OHT Collaborative Councils

- Call for nominees to all participating agencies and sectors, and then an open vote – 40%
- Open call within each sector, and then an open vote – 33%

Formalizing the Network Structure

- Formal, but not legally binding (voluntary association/network) – 80%

Transition to Ontario Health (Central Region) and Ontario Health Teams Infrastructure

Paper Highlights

- Background
- OHT's – Brampton Etobicoke and Mississauga
- Metamorphosis Network Survey
- Transition Change Process
- Draft Models A) Network Representation and B) Network Organizational Structure

Discussion and Decision Making

Draft Models

- A) Network Representation
- B) Network Organizational Structure
- Next Steps and Closing

Testimonials from new Leadership Team Members this Past Year

'As a newer member to the leadership team of the Metamorphosis Group I can see and appreciate the dedication that this leadership team brings to the Community Support Sector. Being a part of this leadership team is extremely important as the team brings community partners together to share ideas, programming and builds on existing and new opportunities to better the lives of our clients within Community Support. I have found that Metamorphosis provides a platform for Community Partners to develop strong relationships and fosters collaboration across the sector of Community Support. Metamorphosis deepens engagement opportunities to further develop professionalism, expand on the continuum of education within the sector and also is a platform to celebrate successes.

Moving into the world of OHT's Metamorphosis works to engage the sector professionals, continue to facilitate learning engagements and offer a stage for collaboration will be necessary. Sharing what works and what challenges exist will enable our sector to grow and meet the demands of an aging population. Metamorphosis is aligned to ensure that this work continues.'

Kurtis

Testimonials continued...

'When Metamorphosis was founded in 2005 SHIP fully supported their belief that a collective voice is a stronger and a united opportunity that would /will influence the 'right' decision making, for services and funding across Peel.

While not a representative at the table during the inception and for many years following SHIP maintained its support and attended the large congregate meetings held by Metamorphosis. The meetings and communications is and has always been relevant.

Recently I joined Metamorphosis as a member of the representation group. I was pleased to do so, being fully confident that this group is transparent and unbiased to the platforms of the individual HSPs...They are interested in the client and community needs.

Supporting Metamorphosis means to support transparency, reduce back door politics and ensure that as service providers we think beyond building our own agencies agenda but building community services.'
